## 题目链接：

### Problem - A1 - Codeforces

You are given a sequence of integer numbers. Sort them in non-decreasing order and submit the result. You do not need to send the source code of a solution, just provide the sorted

🇷🇺 <https://codeforces.com/contest/1376/problem/A1>

## 题解：

堪称块排模板题，直接调用内置函数。

附上正确代码：

```
//  
// Created by admin on 2020/6/25.  
//  
#include <bits/stdc++.h>  
using namespace std;  
long long n,a[3000000];  
int main()  
{  
    freopen("sort.in","r",stdin);  
    freopen("sort.out","w",stdout);  
    scanf("%lld",&n);  
    for(long long i=1;i<=n;i++)  
        scanf("%lld",&a[i]);  
    sort(a+1,a+n+1); //快速排序  
    for(long long i=1;i<n;i++)  
        printf("%lld ",a[i]);  
    printf("%lld\n",a[n]);  
    return 0;  
}
```
